

Accessing our FTP Site

When sending files via e-mail the restrictions can be insufficient. The need for sending large files over the internet becomes necessary in today's business. That's where the Northwest Printing FTP Site becomes handy.

There are several ways to access our FTP Site. These are the options we have found to be the most reliable.

The easiest way to transfer files via our FTP Site is by using Fetch which is a freeware program available on the internet for Macintosh. Fetch is real straight forward to use and very reliable. For the Windows platform there is FTP Explorer or SmartFTP which are shareware programs and also can be downloaded from the internet.

After a FTP utility is on your computer use the information below to access the "nwprinting" FTP Site:

Host Address: www.nwprinting.com
User Login: guest.nwprinting.com
Password: guest

Internet Explorer

Enter "ftp://guest@nwprinting.com/" in the url address field then hit enter. When you are prompt to connect enter:

User ID: guest.nwprinting.com
Password: guest
Account: < blank >

After connecting it might be a good idea to bookmark the site for future visits.

If you have any problems please don't hesitate to ask.
